Flowered for Springtime

Flowers

New Variegated Tuberose.

This scarce variety has been neglected because it has been so high in price; few have ever grown, and not many people have ever seen it. It is a plant of superior excellence and I have put the price within the reach of all. The leaves are bordered with a conspicuous white band, making it a beautiful border plant. Flowers single, large white, delicious fragrance, but not nearly so heavy as the double sort. The spike is graceful and is much more beautiful when cut than the other kinds. Blooms easier and three weeks earlier than the doubles. The bulbs bloom year after year, while the others do not.

Price Fine-blooming Bulbs, 5c each, 3 for 12c, 7 for 25c. By express, 50 for $1.50, 100 for $2.00.

1 Bulb each Begonia, Gloxinia, and Variegated Tuberose, 12 cents.
ECONOMY is the watchword of the hour, and of success, for you and for me. Ben Franklin says: "By industry we thrive." Industry and economy should be practiced by all.

TEN CENTS I have carefully computed; should each one receiving a catalogue send me an order for only ten cents—a sum much smaller than many of the larger catalogues cost—it would help my little business.

A REQUEST If you love flowers and are not already a customer, try mine to the extent of 10 cents. You will be pleased, I am sure, and it will help me along very much. By a very little time spent in canvassing, you can earn in discounts many fine flowers and valuable premiums besides.

PERSONAL I have received so many letters of commendation, so much interest in my welfare, so many kind orders from flower-loving friends, that I take this opportunity to thank you one and all for your kindness and support, and for the interest and good wishes you have shown toward me, not only in orders, but by hundreds of letters I could not acknowledge in person—but appreciate and cherish most fondly.

PREMIUMS I am giving away a $50.00 Bicycle with every 1000 collections I sell of either "Baby Rose," or "My Marguerite" Collections, or with Palm, Bulb, or Lily Collections. Full particulars in each.

$50.00 for growing The Great Chinese Lantern Plant. Full particulars with each order for seed or plants.

IMPORTANT—I fill all orders promptly or return you the money.

If the catalogue you receive does not contain two pages of Premium Offers, they will be sent on application.

DISCOUNTS When you send me 25 cents you can select 30 cents' worth; 50 cents, select 65 cents; $1.00, select $1.30. For $5.00 orders I give free, beside the regular discounts, one each of Cannas ITALIA and AUSTRIA. There are no discounts on my "Baby Rose," or "My Marguerite" Collections, or with Palm, Bulb, or Lily Collections. Premiums can be earned by selling them very easily. Full directions in every collection.

CORRECTION The price of Cannas Italia and Austria on my Catalogue Envelope is 75 cents each. I have, since that was printed, reduced Austria to 50 cts.; Italia still 75c.; 1 of each $1.10.

Please notice my offer of these Cannas Free under the discount clause.

INDEX—The colored pages 16 to 32 contain New and Rare Seeds, also Plants, Bulbs and Vegetable Seeds.

HOW TO SEND MONEY—Send Stamps, Money Orders or Registered Letters.

Respectfully yours,

MARY E. MARTIN.

THE 7 KINDS (REGULAR PRICE 45 CENTS) 1 PACKET OF EACH 30 CENTS.
Mr. Ward, my neighbor, and a florist, grows many acres of the best NEW FRENCH CANNAS. When looking over his Cannas early in September (and a beautiful sight they were), "QUEEN CHARLOTTE" attracted my attention and admiration above all others. Among acres of new varieties, some costing $5.00 apiece, we considered this the best of all. The size of flower, the mass and continuity of bloom surpasses all others (except perhaps "ITALIA" and "AUSTRIA," which are too high-priced and scarce at present for comparison.) The single flowers are immense. The center is bright scarlet, each petal bordered with a broad band of pure golden yellow. Three feet high. I bought all the seed of this variety Mr. Ward has, and it is the first time seed of this kind was ever offered for sale. Another point is, more fine Cannas have been raised from the seed of "Queen Charlotte" and "Mad. Crozy" than all the others combined. Pkt. (8 seeds) 10 cts., 3 pkts. 25 cts., 1 oz. 75 cts.

NEW FAIRY ROSES
FROM SEED.

HARDY . . . . . . .
EVERBLOOMING.
POLYANTHUS . . . .

These roses are a wonderful freak of nature. Seldom is she so lavish with her gifts as in the case of these—most wonders have many weaknesses. But these sturdy little Midgets start in babyhood to do what most plants take time and care to perform. They flower in Babyhood two months from seed. They flower on little shoots 3 inches high. With age the flowers increase in size and number, until large trusses of bloom cover the plant from spring until frost, when the flower trusses are closely followed by clusters of bright red hips or seed pods, lovely for mantels and vases during winter. They are hardy and live from year to year, increasing in beauty and perfection each year.
The flowers come in many colors, white, pink and crimson. The plants grow from one to one and one-half feet high. Sow seed in boxes or pots from February to May. Transplant where they are wanted to remain about the middle of May. Protect with a little litter the first year.

Packet (25 seeds) 10 cents, 3 for 25 cents.

The plant is easy to grow, begins to flower when very small, and is in flower nearly the year around, for winter or summer, inside or out. It is at home. Grows easily and quick from seed. Golden Yellow
Sweet Pea

and other names, will no doubt be given to this very beautiful yellow-flowering plant. Dwarf, flowers produced in dense clusters, are certainly like sweet peas in form, and of a brilliant golden-yellow, more vividly set off with a blotch of maroon on the wing, but the odor of the sweet pea is not apparent. It is a most delightful plant, belonging to the pea family, blooming early and long like them, and in the utmost profusion. A field of plants is a perfect sheet of gold. A bunch of these flowers placed in water or mingled with sweet peas form a rich effect and they are very long lasting. As a pot plant, nothing could be more beautiful, and being an annual it commences to bloom very soon.

Pkt. 10 cents, 3 for 25 cents.

**EXTRA LARGE BULBS,** 6 cents each, 50 cents per dozen, $3.00 per 100 by express.

Chinese Lantern Plant

This singularly handsome New Chinese Plant, recently introduced, is as easily grown from seed as a Tomato, but is perfectly hardy outside over winter. It blooms early, produces the same season a large number of balloon-like husks, 3 to 3½ inches across. At first these are a bright green, then light to bright yellow, then orange and scarlet. They greatly resemble, in this last stage, miniature Chinese lanterns when lighted. The effect of these brilliant husks among the green foliage is very enticing. The harmony of color—pale and dark green, sulphur, ochre, orange and scarlet—is most striking. The branches, covered with husks, are used with great effect as parlor ornaments, as they remain bright and fresh-looking for over a year. As a Christmas Tree Decoration, nothing could be more unique or attractive. They are very handsome when arranged in tall vases together with dried grasses. The elegant scarlet balloon-like husks make an unusual appearance.

In addition to its decorative qualities, the plant can be made highly profitable, as the husks contain cherry-like fruit, more than an inch across, which can be used in many ways as table delicacies. They can be eaten raw, but are most delicious made into a sauce or prepared as candied fruit. In fact, the confectioners of Paris could not obtain a sufficient supply for their use in making candied and sugared fruit for bonbons. There is no doubt that these fruits will be bought in large quantities in our local markets and by city confectioners, as they remain fresh for many weeks and can be shipped for long distances without fear of loss unlike so many small fruits grown at present.

PRICE—Packet of 25 Seeds 10 cents, 3 Packets for 25 cents. Plants started in Pots—15 cents each, 4 for 50 cents.

$50 for Growing the Great Chinese Lantern Plant.
$25 for growing the three largest and handsomest balloon-like husks containing the fruit.

Order your Seed and Plants early to insure a large and early growth. See description.
As the Angel of Morn speeds on the rays of early dawn from east to west, the dewy trumpets of the Morning Glory announce her coming and carpets her way from ocean to ocean.

The flowers of these New Mammoth Morning Glories are as large as moonflowers, often 6 inches across, and the petals of many are beautifully fringed and ruffled. The vines begin to bloom when 2 to 3 feet high and continue to bear flowers by the hundreds until frost. The flowers are not only large but superior in every way to the common kind. The petals are thicker, which gives the colors a deeper and richer look. The flowers are strangely and beautifully marked and colored in a way never seen before. Snowy throats with blood-red border, velvet plum bordered with white, snow-white through all possible shades of blue, and of red from palest pink to darkest reds and purples. They are streaked, mottled, striped, marbled and bordered in wonderful fashion, and sometimes show rare shadings of ash grey, bronze, brown and slate-blue, colors rarely found in any other flowers. To gain time, start the seeds in small pots in the house in March or April, and plant in a warm, sunny place. Pkt. 5c., 1 for 35c.
